Station Madras, *Dated the* 7th July 1931

From (Name) Dr B.Sundara Raj, M A , Ph D ,
(Designation) Director of Fisheries,

To The Secretary to the Government of Madras,
Development Department.

Through
The Accountant General ,Madras.

Sir,

The present strength of the Byndoor Fisheries School is 75 pupils distributed among 5 standards as shown below:

	Boys.	Girls.		
I standard.	40	5	—	45
II	10	3	—	13
III	8	-	—	8
IV	6	-	—	6
V	2	1	—	3
	66	9		1.
	75			

Two teachers are handling the whole school. The I Standard contains 45 pupils and has to be divided into two sections each in charge of a teacher The entertainment of an

additional teacher is essential. I have therefore the honour to request that you will be so good as to obtain the sanction of Government for the employment of an additional teacher for this school

2 In G.O.No 687 MS. Development dated 1-4-30 an additional teacher was sanctioned for the Bangremanjeshwar school. This additional teacher was not appointed as the strength of the school did not justify the appointment. The Assistant Director (Coast) states that the present strength of the Bagremanjeshwar school also does not justify the entertainment of the additional teacher The extra expenditure involved in in appointing an additional teacher for Byndoor school can therefore be met from the savings with regard to Bangremanjeshwar school.

I have the honour to be,
Sir,
Your most obedient servant,

for Director of Fisheries.

There are five classes but the higher classes are very weak in strength. One can not say there has been much progress as the boys seem to fall off at the end of the 1st or 2nd year. The increase in the total strength is probably due to longer admission in the I Standard in recent years

It does not seem however desirable to refuse admissions especially to the displaced class boys and as there are five classes and as there are more than forty boys of girls in the I Standard, three teachers would seem needed

The teacher sanctioned for the Bangra Manjeshwar School has not been appointed. She can be deputed to the Bejadka School

G.O. 488 Dev't 29 3 26 (Z)

The fisheries elementary School at Byndoor (Tarapathi) S. Kanara Dt. was first started in 1926 with one Head Master on Rs. 25 (plus a duty allowance of Rs. 2), and an Asst. teacher on Rs. 20 p.m. The School is being retained since then – vide G.O. 1936 Dev't dated 15-11-28 (J) and 1866 Dev't dated 10.10.1930 (T). The present sanction lasts upto 31.3.1933.

2. In view of the gradual increase in the strength of the School the Director of Fisheries proposes the employment of an additional teacher. The Dev't Dep't support the proposal. The present strength of the School is 75 distributed in 5 classes. The rules framed under the Elementary Education Act require that there should be atleast one regular teacher for every 40 pupils on the rolls, and that it is desirable to employ one teacher for every 30 pupils. As there are only 75 pupils on the rolls, the existing staff of 2 teachers should be sufficient.

portion A on p. 66 of G.O. 687 Dev't 1-4 30 (M)

Dev't. however considers that as the I Standard has more than 40 pupils, 3 teachers are necessary and they propose to utilise the services of a third teacher sanctioned for Baggumanjeshwar school for the in Byndoor School Owing to the present financial stringency when Govt. are exploring

exploring all possible avenues of savings it is submitted that the appointment of an additional teacher for the reason that the strength of the lowest Standard in a School has been exceeded by 5, would appear to be unnecessary

The number of admissions in the first Standard should have been restricted to 40* This may perhaps be pointed out to the Director of Fisheries

3. If the above is accepted, the D.F. may be asked to surrender the Savings anticipated on account of the non-employment of a teacher in the Bangre-manjeshwar School.

4. The case may be returned to Devt w.o.
